

TIMING IS EVERYTHING
& KNOWLEDGE IS POWER

Diana Divination

I am a life-long metaphysician: I just came that way! Even before I got my first tarot deck at age seven, I had taught myself astrology easily since I was already steeped in the symbolism of mythology having been given books on it from the beginning because of my Goddess name. I have been studying & collecting divination systems ever since. With over 30 years experience giving readings, I offer a wide range of services.

I believe the taking of periodic readings of ones state of consciousness is of great holistic benefit for the purpose of not only understanding the particular lessons at hand, but also for knowing when the wind is at your back in certain areas, while not in others so you may act to receive optimal results from your intentions & avoid wasting time & energy going against the Flow of Your Highest Self. *
